ACHIEVEMENT

E-COMMERCE MANAGEMENT SYSTEM

November 1, 2024

- Technologies Used: Django, Python, Bootstrap, HTML/CSS, JavaScript, SQLite.
- Description: Developed a Django-based e-commerce platform with an admin dashboard for product management and a user-friendly frontend for browsing and purchasing products. Implemented a CRUD (Create, Read, Update, Delete) system.

BOOKSTORE MANAGEMENT SYSTEM

October 17, 2024

- Technologies Used: Java, MySQL, JDBC, JavaFX/Swing.
- Description: Designed and developed a comprehensive Bookstore Management System to streamline inventory, sales, and user management for bookstore operations. The system supports real-time updates and detailed tracking of books, sales, and staff activities.

WEB CUSTOMIZATION PLATFORM

June 13, 2024

- Technologies Used: Laravel, PHP, MySQL, Bootstrap, HTML/CSS, JavaScript, AdminLTE.
- Description: Developed a dynamic Laravel-based web application that allows administrators to customize frontend content in real-time, focusing on user experience and efficient content management for gaming products.

ABOUT ME

I am a creative and enthusiastic Web Developer and Designer with a passion for crafting user-friendly and visually appealing websites. I have experience working with modern web technologies, including HTML, CSS, JavaScript, JQuery, PHP and frameworks like Laravel, Django and Bootstrap.
